

TEXTMINDED® TRANSLATION WORKFLOW

Our default workflow for tandem translation includes three steps: 1) Translation, 2) Revision and 3) Translator Revision.

Step 1 – Translation:

The assigned translator accepts the job(s), translates, confirms all segments (100%) and changes the status from Accepted to Completed.

See video here: <https://youtu.be/A0qe17F9Cnw>

Step 2 – Revision:

The assigned reviser (must be another linguist than the translator) accepts the job(s), revises the translations and makes changes as needed, confirms all segments (100%) and changes the status from Accepted to Completed.

See video here: <https://youtu.be/fdMGiLqYdQ>

Step 3 – Translator Revision:

The assigned translator (same person as in step 1) accepts the job(s), revises the changes made by the reviser, confirms all segments (100%) and changes the status from Accepted to Completed.
